Response to Amendment

Applicants' request for a pre appeal conference filed on 9/01/06 was entered and a pre appeal conference was held on 09/18/06, wherein it was decided to allow the case.

Allowable Subject Matter

Claims 1-18 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitation of the dependent claims, in such manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The applied prior art fails to teach a combination of all the claimed elements/ steps/ features as presented in independent claim 1 which include a (side light emitting i.e. not a vertical cavity surface emitting) nitride semiconductor horizontal /side light emitting device including a substrate, a nitride semiconductor active layer containing mainly In and Ga , an optical cavity, two electrodes wherein one is a p-type electrodes and the other a n-type electrodes wherein either of the p-type or n-type electrodes is/are divided in to at least two regions and wherein all the regions of the p-type or n-type electrodes share the optical cavity. (emphasis supplied).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
